

# E-Training Information

Liberator is proud to offer web-based training courses. These are short 1 to 2hr sessions covering UNITY, other vocabulary programmes, and programming of Liberator communication aids. The sessions are conducted in a real 'live-time' setting and are interactive - attendees are required to participate in discussions, ask questions, and even get hands-on experience with programming. All classes are offered free of charge to Liberator customers. For available courses, please click here:

## Registration Information & System Requirements

- Only 2 participants per computer in a training.
- Liberator Device or laptop running Liberator PASS software.
- Internet connection – cable modem or DSL or better
- Speakers and microphone on the PC/laptop being used.
- A phone line separate from your Internet to establish the audio connection. (You will need a speaker phone in a quiet area if there are 2 people attending.)
- Notify us of any special accommodations or if you will be using a screen reader while participating in our courses.
- Classes close one full day before a session starts.
- Only one person per computer station needs to submit registration information. A maximum of two people per computer station may attend the class. If you are registering more than one computer station, a separate registration with a different name must be completed for each computer station.

Confirmation and participation details will be e-mailed to you shortly after your registration is completed. We request that you join the class 10 minutes prior to the scheduled start time to ensure that you are ready when the instructor begins the presentation.

## Computer and Web browser requirements:
