Liberator

Adult Augmented Communicators' Vocabulary
Arranged by frequency

REFERENCE: Hill, K. (2001) The development of a model for automated performance measurement and the establishment of performance indices for augmented communicators under two sampling conditions. *Dissertation Abstracts International,* 62(05), 2293. (UMI No. 3013368)

In the Hill study, 40 hours of interviews were conducted with around 20 augmented communicators. The 100 most frequently occurring words account for 62.3% of the total words used. The top 250 words comprised 78% of the total words. This list shows the top 100 words only.

1. I	44. I'm	87. Unity
