

## Accent® Software Update Instructions – Empower™ Updating Your Device Software using a USB Flash Drive

---

Available Empower software updates are posted on the PRC website as downloadable files. You can perform the updates by either using a computer and USB flash drive or by using a wireless internet connection. These instructions explain how to use a computer and USB flash drive. Separate instructions are available for using a wireless internet connection.

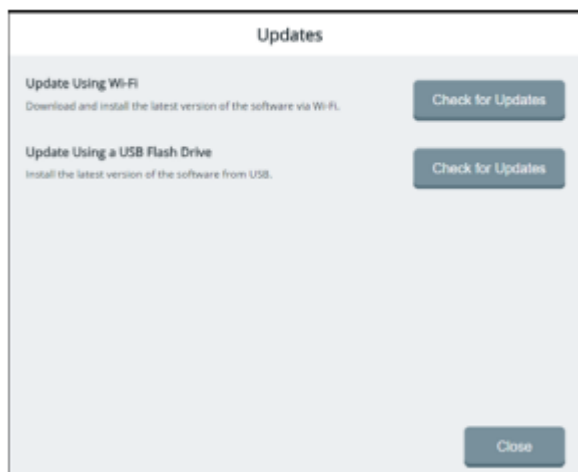

**Important!** Some updates will take longer than others. You won't know how long the update will take, so we recommend that you plan downloads for when you will not need to use your device and can keep an eye on the download progress.

### Step 1: Download the update file to your computer and copy it to a USB flash drive

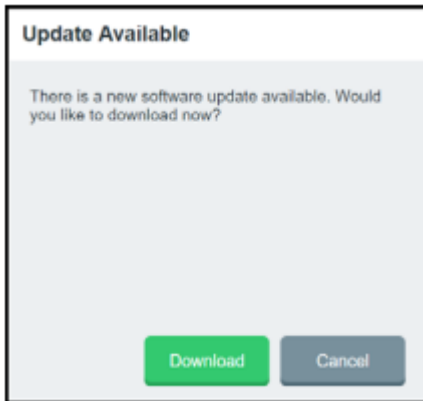

1. Insert your USB flash drive into your computer.
2. Go to the PRC website [Liberator - Homepage | Liberator Ltd](#)
3. Select **Support > Product Support**.
4. Under “Device and PC Emulation Software”, select **Latest Device SW**.
5. Under “UK – Accent Devices (Empower), select **Download Link**
6. Copy the downloaded file **PRC.update** to your computer's desktop.
7. Copy the file from the computer's desktop to your USB flash drive.
8. Turn on your Accent device and plug in the battery charger.
9. Remove the USB flash drive from the computer and insert it into the device.

### Step 2: Update your device

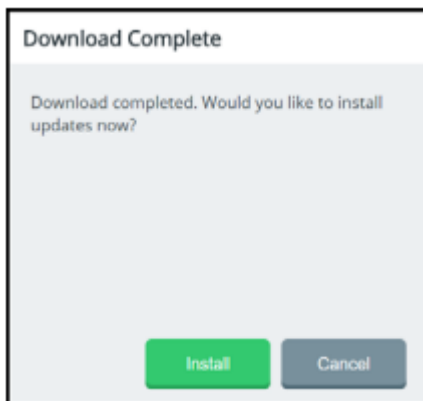

1. Make sure the USB flash drive containing the update file is plugged into your device.
2. Select **Menu > Toolbox > System Settings > Updates**. The updates window allows you to choose how to update your device.

3. Select **Check for Updates** to the right of Update Using a USB Flash Drive. When an update is available, the Update Available window appears.

4. Select **Download**. "Downloading" will be displayed. When the download finishes, the Download Complete window appears.

5. Select **Install**. When the update finishes, the application will close and reopen.

6. Sign in and use the application.
